

KOoyoORA

Kooyoora holds the integrity of work undertaken within robust ethical decision making processes.

It is important for Kooyoora to be able to raise funds, accept donations and sponsorship from a wide range of sources. In doing this Kooyoora is also mindful of perceived or actual conflicts that may arise and compromise the integrity of our work.

We have developed criteria to guide decision making around acceptance of funds that include:

- a) Any respondent or complainant (or known family member) in a current matter cannot donate from the point of intake until 2 years post closure.
- b) As above for any respondent or complainant sitting in a sole decision making role for philanthropic grants or sponsorships
- c) Kooyoora reserves the right to non-acceptance
- d) Kooyoora would not apply, nor accept grants or funds generated from areas that are against the values of the organisation
